1115 – 1230 hrs	Session 1	Theme Session: Forging agile & flexible workforces: Bolstering global mobility of skilled talent

With the advent of Industry 4.0 and an increasingly digitized world, Future of Work is being driven more and more by highly advanced equipment and infrastructure. In a rapidly technologically innovative and transformative world, sustaining this pace of productivity has only increased the demand of highly skilled talent across international borders. To meet this ever-increasing demand for international workforce, now, more than ever, there is a critical need to create Institutional mechanisms to impart quality skill training, in line with international demand and take a global approach to forge youth into skilled talent, skilled migration.

As the theme suggests, the session aims to discuss strategies to develop agile & flexible workforces, who are readily employable across the globe.
